KUBATA
The cubic cassette awning

 clear
consistent
cubic
Simple with no visible fixings. Kubata’s clear, uniform shape is not without reason. It stems from an overall aesthetic concept dominated by smooth surfaces. The awning cassette is enhanced by the clean appearance and no visible fixings – the result of weinor’s sophisticated technological developments.

Always aesthetically pleasing. When open the Kubata has a high-quality textile feel. When closed the awning cassette creates clean lines against the building facade with it’s almost perfectly square shape. The fabric and other components are well protected from the elements.

The house and awning in harmony. Where does the building stop, where does the sunshade start? With the Kubata cassette awning the transitions are smooth. With its cubic shape it blends perfectly into modern house architecture as a stylish design element. The sun protection and facade form a balanced symbiosis that meets the highest aesthetic requirements.

Frame colour WT 029/80081 I Pattern 3-515

Honoured with:

Award winning design. In 2019 Kubata was awarded with the German Design Award and the iF Design Award.
High-quality modern fabrics and a large selection of frame colours accompany the Kubata’s clean design. Everything can be coordinated together wonderfully so the awning and house form one design element. The frame colours and fabric patterns also meet the highest quality standards.

**Exclusive fabric quality**

Choose your totally personal pattern from more than 140 fabrics. Whether it’s timeless neutral, harmonious or trendy, we have just the right fabric to suit your taste. Thanks to our innovative solution dyeing technology, your fabric has long-lasting colour brilliance.

**Perfect fabric positioning**

A special glide profile supports the roller tube along its entire length and thus effectively prevents sagging. The fabric retains its perfect shape.

**Ideal fabric protection**

Teflon woven tissue protection and nanotechnology provide impregnation for the weinor awning fabric. The dirt-resistant protective coating also prevents soiling.

**The latest frame colours**

At weinor you can select from more than 50 standard colours and more than 150 other RAL colours. The powder coating done in our in-house factory guarantees colour fastness and a uniform gloss level.

**High-quality awning fabrics**

MODERN COLOURS
Top quality

Anyone opting for weinor products can rely on top quality as well as clean and consistent design. Only high quality materials are used. The Kubata cubic cassette awning also sets standards with numerous technical highlights.

Well protected against the wet and dirt

The all-round enclosed and robust awning cassette keeps the fabric and other component parts just as well protected from the elements as the controlled rain drainage within the front profile. As a result, you can enjoy your sun protection for many years. Kubata is fixed almost flush to the wall so that no rainwater or dirt makes the house wall dirty under the awning cassette.

Various installation options

Besides the standard wall mounting, Kubata can also be easily fitted if there are special site requirements.

Atmospheric light, powerful warmth

Your desire for great comfort—spend pleasant evenings on the patio under LED spotlights that can be dimmed infinitely and are integrated in the awning cassette. You can even enjoy your patio at cooler times with the Tempura Quadra Universal heating system. It can be retrofitted and is unobtrusively fitted to the house facade.

Convenient control by hand transmitter, sensor or app

Design meets user-friendliness: Kubata is equipped as standard with a drive without remote receiver. If you choose a remote-controlled motor with weinor BiConnect radio control, you can really easily operate the sun protection, lighting and heating using the hand transmitter or BiEasy App for iPhone and iPad. The sun sensors makes the awning extend automatically.

- WT 029/90146
- Pattern 4-786

Premium quality made in Germany

Most definitely an original product

Nice and taut and windproof

The low-noise weinor LongLife arm with 10-year warranty impresses with its very high tensioning strength. This ensures the fabric is exceptionally well positioned. The tried and tested wind lock safety device prevents the awning from lifting up when wind gusts from below.
