Atractive and practical brickbond design to provide an optimum balance of security, ventilation and vision.

APPLICATION: Internal or External. Bars, servery’s, hotel receptions, clubs, shopping malls, display areas, shop fronts, shop windows, and more.

COLOURS: Available in white, black, grey, red or brown.

LOCKING: Key operated bottom lock or shootbolts.

OPERATION: Manual (push up) or power operated.

GUIDES & BOTTOM RAILS: Choice of Silver or Gold/Brass anodised Aluminium.

CURTAIN CONSTRUCTION: Constructed from high quality injection moulded plastic links assembled on 8mm diameter heat treated alloy rods, the plastic grille has 22mm diameter nylon end guides fitted to each end of every rod to facilitate ease of movement. The nylon guides run in lipped side channels designed to prevent the grille curtain from being forcibly removed and help deter unauthorised entry. Centre or corner stantions can be made removable.
